Profile

Computer Engineering student and Full-Stack Web Developer with hands-on experience building web applications, RESTful APIs, authentication systems, and database-driven applications using JavaScript, Node.js, Express.js, MongoDB, and MySQL. Focused on building maintainable backend systems and practical full-stack solutions.

EDUCATION

September 2025 - May 2030

Bachelor of Computer Engineering at Badr University — Cairo, Egypt
Grade: 3.3/4.0

Second-year Computer Engineering student focused on software development, computer systems, and programming.

EXPERIENCE

March 2025 - April 2025

Freelance Full-Stack Web Developer at Self-Employed, Cairo, Egypt

Developed an Instagram automation and content publishing platform with backend services for Instagram API integration, authentication, media management, and publishing workflows.

- Built an Instagram content publishing system using the Instagram Graph API.
- Designed RESTful APIs with Node.js and Express.js for content management and publishing.
- Integrated authentication, media handling, third-party APIs, and API error handling.

SKILLS

Programming Languages: JavaScript, C++
Frontend: HTML5, CSS3, Bootstrap, Javascript, React
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, MySQL
Tools: Git, GitHub

PROJECTS

February 2024 - April 2024

Restaurant Meal Management System • [GitHub Frontend](#) • [GitHub Backend](#)

Full-stack restaurant management system for managing meals, ingredients, inventory, and orders using Node.js, Express.js, MySQL, and RESTful APIs.

- Designed a relational MySQL database with structured entity relationships.
- Developed RESTful APIs for meals, ingredients, inventory, and orders.
- Implemented CRUD operations and backend business logic.

January 2024 -
February 2024

Social Media Application • [GitHub Frontend](#) • [GitHub Backend](#)

Full-stack social media application featuring authentication, posts, comments, likes, and user profiles using Node.js, Express.js, MongoDB, and RESTful APIs.

- Implemented JWT-based authentication and authorization.
- Developed RESTful APIs for posts, comments, likes, and user profiles.
- Designed MongoDB data models and implemented CRUD operations.
